(* : *Editor-in-chief*)

Volume 10
1969

Japanese Society of Plant Physiologists
Tokyo, Japan

The publication of this journal has been supported in part by financial aid from the Ministry of Education.

CONTENTS

No. 1, March, 1969

MASUDA, Y.: Auxin-induced cell expansion in relation to cell wall extensibility 1

GRIFFITHS, D. A. and D. J. GRIFFITHS: The fine structure of autotrophic cells of *Chlorella vulgaris* (Emerson strain) 11

LI, P. H. and C. J. WEISER: Metabolism of nucleic acids in one-year old apple twig during cold hardening and de-hardening 21

KAWASHIMA, N.: Comparative studies on fraction 1 protein from spinach and tobacco leaves..... 31

OSHIO, Y. and E. HASE: Studies on red pigments excreted by cells of *Chlorella protothecoides* during the process of bleaching induced by glucose or acetate I. Chemical properties of the red pigments 41

OSHIO, Y. and E. HASE: Studies on red pigments excreted by cells of *Chlorella protothecoides* during the process of bleaching induced by glucose or acetate II. Mode of formation of the red pigments 51

SHIMODA, C. and N. YANAGISHIMA: Relation of special RNA to sensitivity of yeast strains to auxin 61

BESLOW, D. T. and J. P. RIER: Sucrose concentration and xylem regeneration in *Coleus* internodes *in vitro*..... 69

MASUDA, Y. and S. KAMISAKA: Rapid stimulation of RNA biosynthesis by auxin 79

SPLITTSTOESSER, W. E.: Arginine metabolism by pumpkin seedlings. Separation of plant extracts by ion exchange resins 87

YOUNIS, A. E., M. E. YOUNIS and M. A. GABR: Studies on the effect of certain enzymic poisons on the metabolism of storage organs 2. Differential effects of iodoacetate on the respiratory metabolism and permeability barriers of radish root slices 95

GIMMLER, H., W. ULLRICH, J. DOMANSKI-KADEN and W. URBACH: Excretion of glycolate during synchronous culture of *Ankistrodesmus braunii* in the presence of disalicylidenepropanediamine or hydroxypyridinemethanesulfonate 103

TAKAMIYA, K. and A. TAKAMIYA: Light-induced reactions of ubiquinone in photosynthetic bacterium, *Chromatium* D. II. Effects of inhibitors and other experimental conditions 113

KIRA, T., K. SHINOSAKI and K. HOZUMI: Structure of forest canopies as related to their primary productivity.....129

NELSON, N. and I. ILAN: Inhibition of nitrate reductase from tomato leaves by adenosine-5′-diphosphate 143

HIGUCHI, M. and G. KIKUCHI: Induced formation of ribulose 1,5-diphosphate carboxylase in *Rhodopseudomonas spheroides* with particular concern to its relation with chromatophore formation 149

BERRY, W. L. and O. E. SMITH: Effects of rubidium, potassium and gibberellic acid on plant growth 161

ARGLEBE, C. and T. C. HALL: Extraction and comparison of bean cytoplasmic and chloroplast ribosomes 171
ISHIZAKI, N., K. TOMIYAMA, N. KATSUI, A. MURAI and T. MASAMUNE: Biological activities of rishitin, an antifungal compound isolated from diseased potato tubers, and its derivatives.....183
MURATA, N. and A. TAKAMIYA: Nature of light-induced absorbance changes at 682 mμ and 702 mμ in photosynthesis of *Anacystis nidulans* 193
CURTIS, R. W.: Effect of malformin on the major constituents of *Phaseolus vulgaris*.....203

Short communications

KANNO, T. and K. HINATA: An electron microscopic study of the barrier against pollen-tube growth in self-incompatible *Cruciferae* 213
SHUTAK, V. G. and J. C. HAPITAN, Jr.: Respiration rate of fruit flesh from red and green sides of 'Cortland' apples 217
MIYOSHI, Y. and Y. TSUBO: Permanent bleaching of *Euglena* by chloramphenicol 221
BOWEN, J. E.: Absorption of borate ionic species by *Saccharum officinarum* L. ...227
GUPTA, S. and S. C. MAHESHWARI: Induction of flowering by cytokinins in a short-day plant, *Lemna paucicostata* 231
YONEDA, Y. and T. ENDO: Effect of low concentration of hydrogen peroxide on indoleacetate oxidase zymogram in *Pharbitis nil* 235
OKU, T. and K. SUGAHARA: Occurrence of unknown naphthoquinone in etiolated bean leaves 239

NO. 2, JUNE, 1969

KOJIMA, M., T. MINAMIKAWA and I. URITANI: Some properties of sikimate : NADP oxidoreductase produced in sweet potato root tissue after slicing 245
NAKASHIMA, H.: Effect of inhibitors of nucleic acid and protein synthesis on the reappearance of "light interruption rhythm" in a long-day duckweed, *Lemna gibba* G 3 259
CHINTRARUCK, B. and H. J. KETELLAPPER: Interaction of vernalization, photoperiod and high temperature in flowering of *Arabidopsis thaliana* (L.) HEYNH. 271
MATSUKA, M. and E. HASE: Effect of cycloheximide on the process of "glucose-bleaching" in *Chlorella protothecoides*.....277
MINAMIKAWA, T., S. YOSHIDA and M. HASEGAWA: Alicyclic acid metabolism in plants 3. Fate of ^{14}C-shikimate and ^{14}C-quinate in mung bean plants ...283
IWASAKI, H. and S. SHIDARA: Crystallization and some properties of cryptocytochrome c from aerobically-grown *Pseudomonas denitrificans* 291
WALTON, D. C. and G. S. SOOFI: Germination of *Phaseolus vulgaris* III. The role of nucleic acid and protein synthesis in the initiation of axis elongation 307
ASAHI, T. and R. MAJIMA: Effect of antibiotics on biogenesis of mitochondria during aging of sliced sweet potato root tissue 317

SHIBATA, K.: Pigments and a UV-absorbing substance in corals and a blue-green alga living in the Great Barrier Reef 325
SHIBATA, M., M. KOBAYASHI and E. TAKAHASHI: The possibility of photo-induced induction of nitrate reductase in rice seedlings 337
ESASHI, Y.: Different actions of red and blue or far-red lights in the photoperiodic tuberization of *Begonia evansiana* 349
NANDA, K. K., H. N. KRISHNAMOORTHY and K. LATA: Effect of decapitation, phosfan D and cycocel on the flowering of *Impatiens balsamina* exposed to varying numbers of short days 357
TAKAMIYA, K. and A. TAKAMIYA: Light-induced reactions of ubiquinone in photosynthetic bacterium, *Chromatium* D. III. Oxidation-reduction state of ubiquinone in intact cells of *Chromatium* D. 363
UDVARDY, J., G. L. FARKAS and E. MARRÉ: On RNase and other hydrolytic enzymes in excised *Avena* leaf tissues 375
KUMAGAI, T. and Y. ODA: An action spectrum for photoinduced sporulation in the fungus *Trichoderma viride* 387
YOSHIDA, D.: Formation of putrescine from ornithine and arginine in tobacco plants 393
ODA, Y.: The action of skeleton photoperiods on flowering in *Lemna perpusilla* 399
KOMAMINE, A., Y. MOROHASHI and M. SHIMOKORIYAMA: Changes in respiratory metabolism in tissue cultures of carrot root 411
YAMAGUCHI, T., T. IKAWA and K. NSIZAWA: Pathway of mannitol formation during photosynthesis in brown algae 425
HUZISIGE, H., H. USIYAMA, T. KIKUTI and T. AZI: Purification and properties of the photoactive particle corresponding to photosystem II 441

Short communications

MURATA, T. and T. AKAZAWA: Stimulative effect of potassium ion on starch synthetase of different plant origins 457
KETELLAPPER, H. J.: Growth and development in *Phalaris* III. Effect of temperature on critical daylength in geographic strains of *P. tuberosa* L. 461
MIHARA, S. and E. HASE: A note on ribosomes in cells of *Chlorella protothecoides* 465
KOJIMA, M., T. MINAMIKAWA, H. HYODO and I. URITANI: Incorporation of some possible radioactive intermediates into chlorogenic acid in sliced sweet potato tissue 471
SUZUKI, Y. and N. TAKAHASHI: Red and far-red reversible photoreactions on seed germination of *Cucumis sativa* 475
RAGHAVAN, V.: Photocontrol of growth pattern in a tissue isolated from the gametophytes of bracken fern 481
TANIMOTO, E. and Y. MASUDA: Auxin-induced synthesis of TB-RNA in pea stems 485
HANSON, J. B. and R. J. MILLER: Active swelling in plant mitochondria 491

No. 3, September, 1969

KANAZAWA, T. and K. KANAZAWA: Specific inhibitory effect of copper on cellular division in *Chlorella* 495
WULFF, R. and E. MEDINA: Germination of seeds in *Jussiaea suffruticosa* 503
MATSUKA, M., S. MIYACHI and E. HASE: Further sudies on the metabolism of glucose in the process of "glucose-bleaching" of *Chlorella protothecoides* ...513
MATSUKA, M., S. MIYACHI and E. HASE: Acetate metabolism in the process of "acetate-bleaching" of *Chlorella protothecoides* 527
BARAT, G. K., H. HIRATA, K. KUMAZAWA and S. MITSUI: Studies on the change of the respiratory system in roots in relation to the growth of plants V. Effect of root pruning terminal oxidase activity in roots of cereal crops 539
BARAT, G. K., H. HIRATA, K. KUMAZAWA and S. MITSUI: Studies on the change of the respiratory system in roots in relation to the growth of plants II. Activity of iron-containing oxidases in roots of cereal crops with the aging of plants 545
YOSHIDA, Y.: Glutaraldehyde as an effective stabilizer for the isolation of intact chloroplasts 555
KIKUTA, Y. and L. C. ERICKSON: Metabolism of glucose in relation to the lipid synthesis in the fruit of *Persea americana* MILL. 563
YOUNIS, A. E., M. E. YOUNIS and M. A. GABR: Studies on the effect of certain enzymic poisons on the metabolism of storage organs 3. Uptake and utilization of sucrose by radish root slices in presence of iodoacetate....575
ESASHI, Y.: The relation between light and temperature effects in the induction and release of dormancy in the aerial tuber of *Begonia evansiana* ...583
NOBEL, P. S.: Light-dependent potassium uptake by *Pisum sativum* leaf fragments 597
GALSKY, A. G. and J. A. LIPPINCOTT: Promotion and inhibition of α-amylase production in barley endosperm by cyclic 3′,5′-adenosine monophosphate and adenosine diphosphate....607
OOTA, Y.: Frond and flower production in *Lemna gibba* G 3 in presence of respiratory inhibitors 621
MIYATA, K. and M. NAGAHISA: Some properties of NAD-independent α-glycerophosphate dehydrogenase of yeast 635
KODAMA, A.: Studies on the metabolism of a sulfur-oxidizing bacterium VI. Fractionation and reconstitution of the elementary sulfur-oxidizing system of *Thiobacillus thiooxidans* 645
PALMER, C. E. and O. E. SMITH: Effect of abscisic acid on elongation and kinetin-induced tuberization of isolated stolons of *Solanum tuberosum* L. 657
OJI, Y. and G. IZAWA: Effects of univalent cations of the formation of nitrate reductase and nitrite reductase in rice seedlings 665
RAMAGOPAL, S., G. W. WELKIE and G. W. MILLER: Fluoride injury of wheat roots and calcium nutrition 675
IZHAR, S., J. M. BEVINGTON and R. W. CURTIS: Effect of malformin on root growth 687

Short communications

SUZUKI, Y.: Photo- and thermo-induction in seed germination of *Physalis Alkekengi* 699

VERLEUR, J. D. and W. J. VAN DER WEYDEN: The effect of injury and infection by *Gibberella zeae* on the polyacrylamide gel electrophoretic pattern of soluble proteins in potato tuber tissue 703
AIMI, R.: Electronic growth recorder 707
DENTON, T. E., M. MESHAD, J. W. HOLADAY and J. C. O'KELLEY: Ca and Sr influence on carbohydrate synthesis and composition in *Protosiphon* ...711

No. 4, December, 1969

MITSUHASHI, M., H. SHIBAOKA and M. SHIMOKORIYAMA: Portulal: a rooting promoting substance in *Portulaca* leaves 715
KUMAZAWA, K. and J. A. GOLEB: Optical emission spectrographic studies on the distribution and accumulation of nanogram amounts of ^{15}N in rice seedlings 725
TAKEUCHI, Y., K. YOSHIDA and S. SATO: Electron transport dependent adenosine triphosphatase activity in castor bean endosperm mitochondria...733
OJI, Y. and G. IZAWA: Flavine nucleotide nitrate reductase from broad bean leaves 743
NISHIDA, K. and Y. HAYASHI: Acid-base induced calcium uptake by spinach chloroplasts 751
KIKUTA, Y. and L. C. ERICKSON: Oleic acid synthesis in the fruit of *Persea americana* MILL....759
PINSKY, A. and L. ORDIN: Role of lipid in the cellulose synthetase enzyme system from oat seedlings....771
BEYER, E. M., Jr. and P. W. MORGAN: Time sequence of the effect of ethylene on transport, uptake and decarboxylation of auxin 787
SIEGENTHALER, P. A.: Vieillissement de l'appareil photosynthétique I. Effet synergique de la lumière et du vieillissement *in vitro* sur les changements de volume de chloroplastes isolés d'épinard....801
SIEGENTHALER, P. A.: Vieillissement de l'appareil photosynthétique II. Effet synergique de la lumière et du vieillissement *in vitro* sur les activités photochimiques de chloroplastes isolés d'épinard 811
YONEDA, M. and N. KAMIYA: Osmotic volume change of cytoplasmic drops isolated *in vitro* from internodal cells of Characeae 821
OSHIMA-OBA, K. and I. URITANI: Enzymatic synthesis of isopentenyl pyrophosphate in sweet potato root tissue in response to infection by black rot fungus 827
INADA, K.: Effect of blue light on the photonastic reaction of rice leaves 845
KODAMA, T., K. SHIMADA and T. MORI: Studies on anaerobic biphasic growth of a denitrifying bacterium, *Pseudomonas stutzeri* 855
MITSUHASHI, M., H. SHIBAOKA and M. SHIMOKORIYAMA: Morphological and physiological characterization of IAA-less-sensitive and IAA-sensitive phases in rooting of *Azukia* cuttings 867
MIYATA, H. and Y. YAMAMOTO: Rhythms in respiratory metabolism of *Lemna gibba* G_3 under continuous illumination 875
HYODO, H. and I. URITANI: Growth, respiration and some enzymes of three strains of *Ceratocystis fimbriata* 891

Brown, G. N., D. R. Bielefeld and V. C. Karnstedt: Changes in mimosa epicotyl soluble nucleic acid patterns: Comparisons between changes related to growth rate and changes related to degree of maturation.....899
Curtis, R. W.: Stimulation of ethylene or ethane production by malformin ...909

Short communications

Otsuki, Y. and I. Takebe: Isolation of intact mesophyll cells and their protoplasts from higher plants 917
Yoshida, D.: Effect of agmatine on putrescine formation in tobacco plants ...923
Nakanishi, T., Y. Esashi and K. Hinata: Control of self-incompatibility by CO_2 gas in *Brassica*.....925
Li, P. H. and C. J. Weiser: Influence of photoperiod and temperature on potato foliage protein and 4 S RNA 929
